WORK EXPERIENCE

Junior Software Developer | *Frontech Solutions*

Aug 2026 – Present

- Developed and maintained end-to-end automated test suites using Cypress, ensuring backend API stability and data integrity across deployments.
- Collaborated with senior engineers to integrate Cypress automated testing into the CI/CD pipeline, reducing manual QA overhead.

IT Support / Receptionist | *Glenora Family Dental*

Jun 2021 – Jun 2022

- Served as the primary point of contact for all inbound communication (email, phone, in-house messaging), demonstrating strong customer service and communication skills.
- Coordinated IT-related communication between management and production staff, escalating unresolved issues appropriately.

PROJECTS

Personal Portfolio Website | *JavaScript, HTML, CSS — Individual Project*

Ongoing

- Designed and deployed a full-stack personal portfolio website hosted on GitHub Pages, demonstrating end-to-end web development skills including design, development, and deployment.
- Integrated GitHub public REST API calls for automatic pulling of project and resume information.

Cartesian to G-Code Translation Application | *C, C# — Group Project*

Jan 2026 – Apr 2026

- Engineered a C# desktop application that receives and stores real-time position data from a microcontroller, visualizing motion output with a hardware-to-display latency under 5 ms and storage of up to 500,000 G-Code instructions.
- Led a 2-person development team using Git version control and Agile sprint planning, coordinating deliverables with multiple external stakeholders.

Color Coder Chrome Extension | *TypeScript, React, Node.js — Client Project*

Present

- Designed and deployed a Chrome extension, reducing color palette creation time from 1-2 hours down to 2-5 mins.
- Rapid color extraction increased designer to manufacturer color communication efficiency by 96%.
- Standardized color palette exports reduced designer to manufacturer color error rates by 12%.

EDUCATION

Computer Engineering Tech Diploma | *Northern Alberta Institute of Technology*

Sept 2024 – Apr 2026

- Relevant coursework: Data Structures, Algorithms, Object-Oriented Design, Databases and REST APIs.

Bachelor of Science, Honours with Distinction | *University of Alberta*

Aug 2019 – Jun 2022

- Relevant coursework: Statistics, Data Analytics, Root Cause Analysis, Stakeholder Communication.

LEADERSHIP AND MENTORSHIP

Programming Instructor | *Skillcity Institute*

May 2025 – Present

- Mentor youth aged 8 to 17 in web development, electronics, and robotics; design hands-on curricula making complex technical concepts accessible across skill levels.

TECHNICAL SKILLS

Languages: C#, Python, TypeScript, JavaScript, PHP, C, SQL

Frameworks: Node.js, Express.js, React, C#.NET (8.0), ASP.NET ADO, Entity Framework, jQuery, LINQ, Raylib, Webpack

Databases: MySQL, Microsoft SQL Server, MariaDB

Tools: Git, GitHub, Github Actions, Microsoft Azure, VS Code, Unity, Power BI, CPanel, uv

Practices: REST APIs, Object-Oriented Programming, Full-Stack Development, CRUD Operations, Agile, Scrum, Kanban, Jira, Quality Assurance, Automated Testing, CI/CD
